## ABOUT

During the year I gained extensive experience and knowledge on how to design an application that will be extensible in the future and convert it into components that can be easily extended and reused. I have experience to deliver results within project's resources and time constraints.

Programming is my passion since I was in school. I love to travel. I've visited 14 countries. I'm happy to meet new people. I like team sports, music and board games.

I think I have good communication skills to articulate thoughts clearly. If I don't know something, I'll go and find out. Then I'll share this knowledge with colleagues.

## INTERESTS

PROGRAMMING, CREATING APPS
INNOVATIVE TECHNOLOGIES
PSYCHOLOGY, HISTORY
TRAVEL, MEET NEW PEOPLE
BASKETBALL, TABLE TENNIS
PLAY GUITAR, BOARD GAMES
